

Soooooooooooo IGA?

AKA: mouse studies are lame

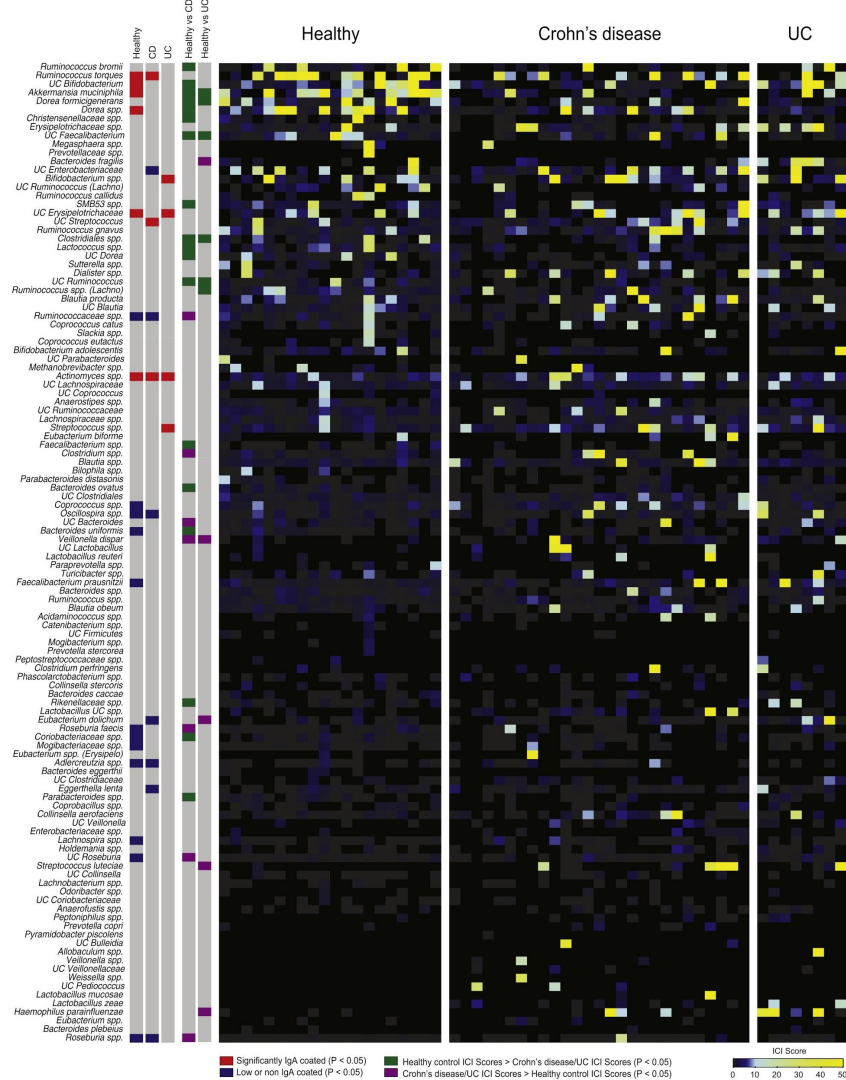

Nathaniel Chu

Palm et al 2014 Cell

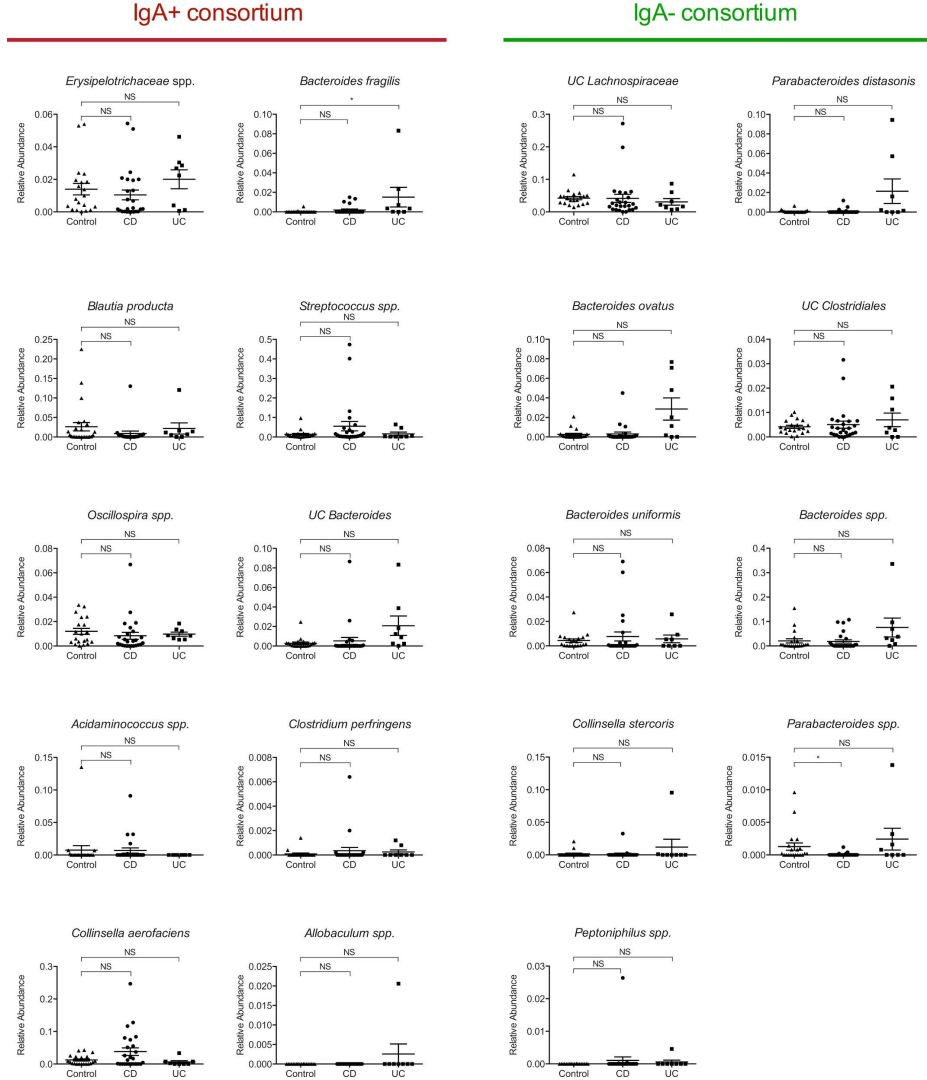

IGA-association in healthy, CD, and UC patients

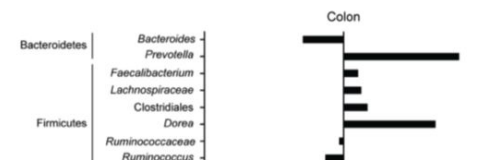

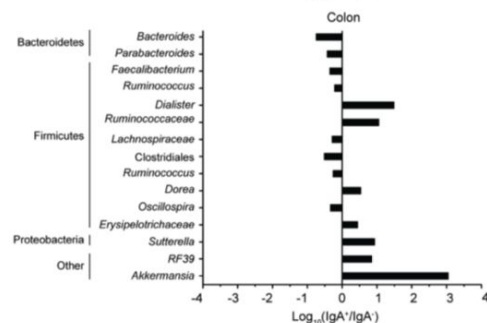

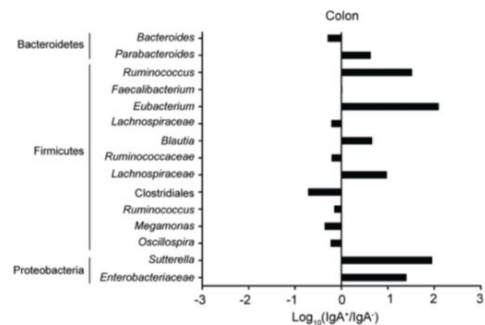

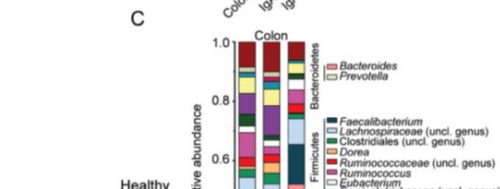

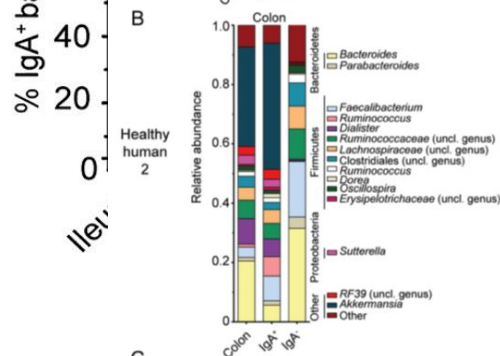

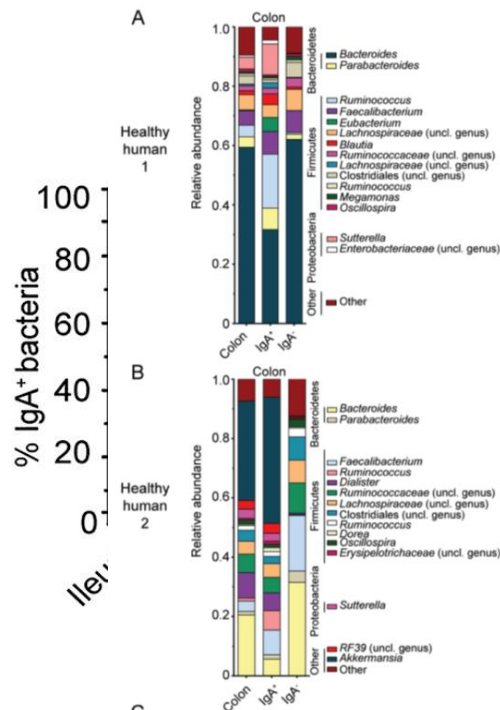

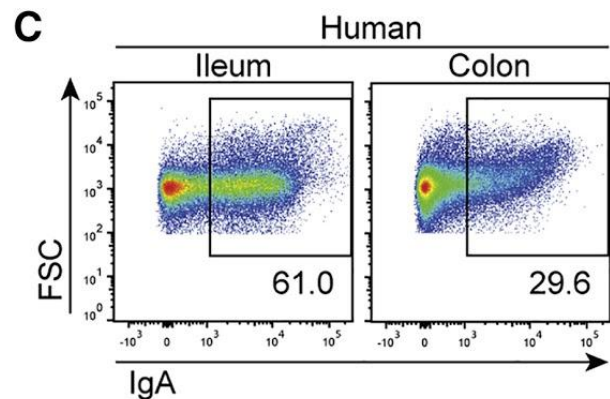

Note *Ruminococcus torques*, *Akkermansia*, *Bacteroides fragilis*,

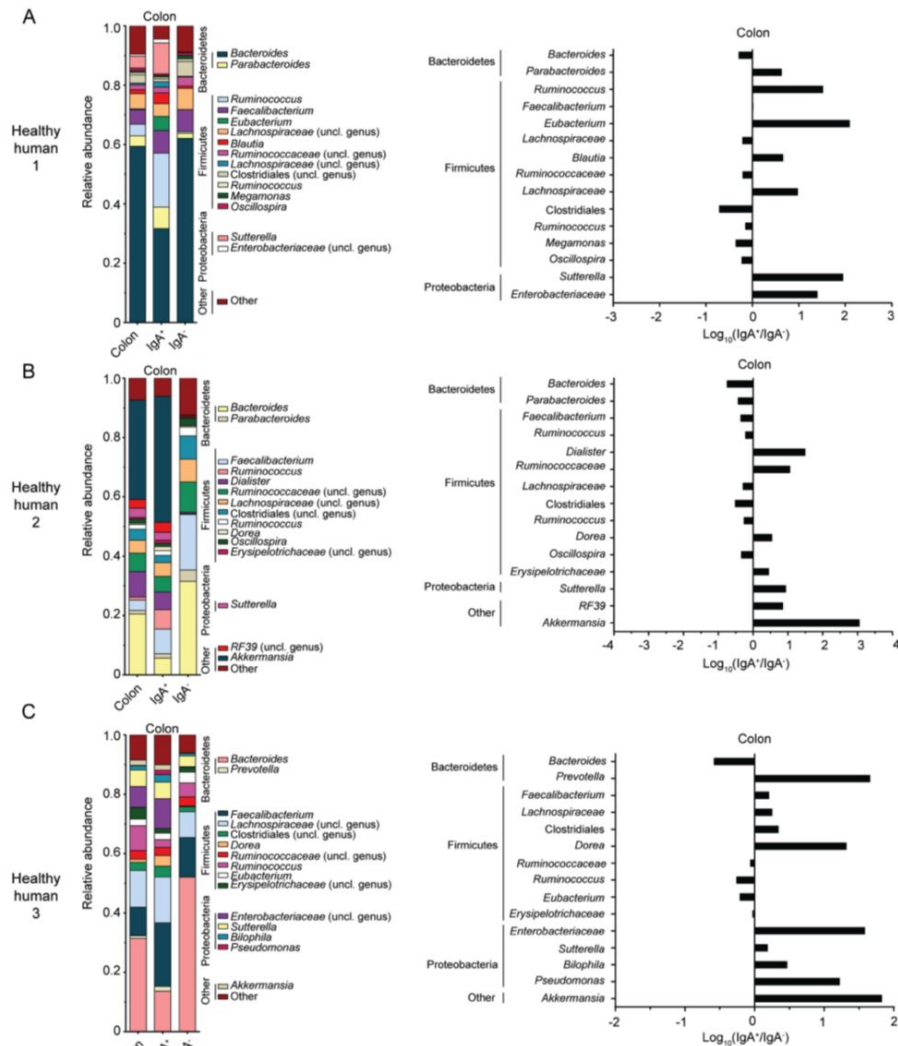

IGA decoration in healthy/CD/UC does not reflect relative abundance

Bunker et al 2015 Immunity

IGA labeling heterogeneity

Kau et al 2015 Sci Transl Med

Appears that
enterobacteriaceae
are pathogens labelled
